Any building, structure or use which existed lawfully at the time of the effective date of this comprehensive amendment to the Zoning Ordinance, and which remains or becomes non-conforming upon the effective date of this comprehensive amendment to the Zoning Ordinance or of any subsequent amendment thereto, may be continued only in accordance with the following regulations:

1. Repairs and Alterations

Ordinary repairs and alterations may be made to a non-conforming building or structure, provided that no structural alteration shall be made in or to such nonconforming building or structure if all or substantially all of said non-conforming building or structure is either designed or intended for a use not permitted in the zoning district in which it is located except for:
   a. Those alterations required by law, or
   b. Those alterations that make the building or structure and use thereof conform, to the regulations of the zoning district in which it is located. Whether such repairs and alterations are “ordinary” shall be determined by the Village President, or his designee, and shall include, among other things, the replacement of storage tanks or other improvements where the safety of operation of the installation requires such replacement.

2. Additions and Enlargements

The following shall govern the construction of additions and enlargements of nonconforming buildings, structures or uses:

   a. Non-Conforming Buildings and Structures Designed for a Non-Conforming Use: A non-conforming building or structure, all or substantially all of which is designed or intended for a use not permitted in the district in which it is located, shall not be added to or enlarged in any manner unless such non-conforming building or structure and the use thereof (including all additions and enlargements thereto), is made to conform to all the regulations of the district in which it is located.
b. Conforming Building Containing Non-Conforming Uses: A building or structure, all which conforms to the regulations of the district in which it is located, shall not be added to or enlarged in any manner unless the use thereof, is made to conform to all the regulations of the district in which it is located.

No building or structure shall be moved, in whole or in part to any other location unless every portion of such building or structure, and the use thereof conforms to all of the regulations of the district in which the building will be located.

A non-conforming building, structure or portion thereof, all or substantially all of which is designed or intended for a use which is not permitted in the district in which it is located and which is destroyed or damaged, by fire or other casualty or act of God, to the extent that the cost of restoration to the condition in which it was before occurrence will exceed sixty (60) percent of the total cost of reconstructing the entire building or structure, shall not be restored unless said building or structure and the use thereof shall conform to all regulations of the district in which it is located. In the event that restoration of such damage or destruction is less than sixty (60) percent of the cost of reconstructing the entire building or structure, no repairs or construction for restoration shall be made unless such work is started within one (1) year from the date of the damage/destruction and is diligently prosecuted to completion.
